

# Fayetteville Museum of Art

studio HOUR

---

*Fayetteville Museum of Art will be offering after school classes for middle school & high school aged students this fall. Each session will provide instruction for all levels of ability in a small class environment. The lessons will concentrate on individual artistic development, and the exploration of media and creative process. Every class will challenge the imagination, develop creativity, sharpen critical thinking and develop art making skills. The course of instruction will focus on technique, incorporating formal properties of art, with an emphasis on aesthetic orientation. Our classroom theme is that Art is not only a noun, but a verb.*
